How to Drive a Roundabout

Michigan is rolling out more roundabouts. They are easy to navigate and safer than traditional intersections. Remember, traffic in the roundabout always moves counter clockwise.

- Choose your lane before entering.
- Yield to traffic already in the roundabout and to pedestrians in crosswalks.
- Use signs and pavement markings to help guide you.
- For more information, go to www.michigan.gov/roundabout.

NEW for 2011
Texting while driving ban - In 2010, Michigan became the 24th state to ban drivers from texting. Drivers who text behind the wheel risk not only a crash, but also a \$100 citation.

"Texting" is defined by Michigan State Police as: "reading, manually typing or sending a text message while driving."

"If You Can Steer It, Clear It" - A new slogan reminding you that you are required to safely remove your vehicle from the main traveled portion of the roadway IF you are in a crash and your vehicle still operates AND there are no serious injuries (or deaths.)

Laws You Can Live With
If you drive too fast in a construction zone you risk a speeding ticket, points on your driving record, and tough penalties.

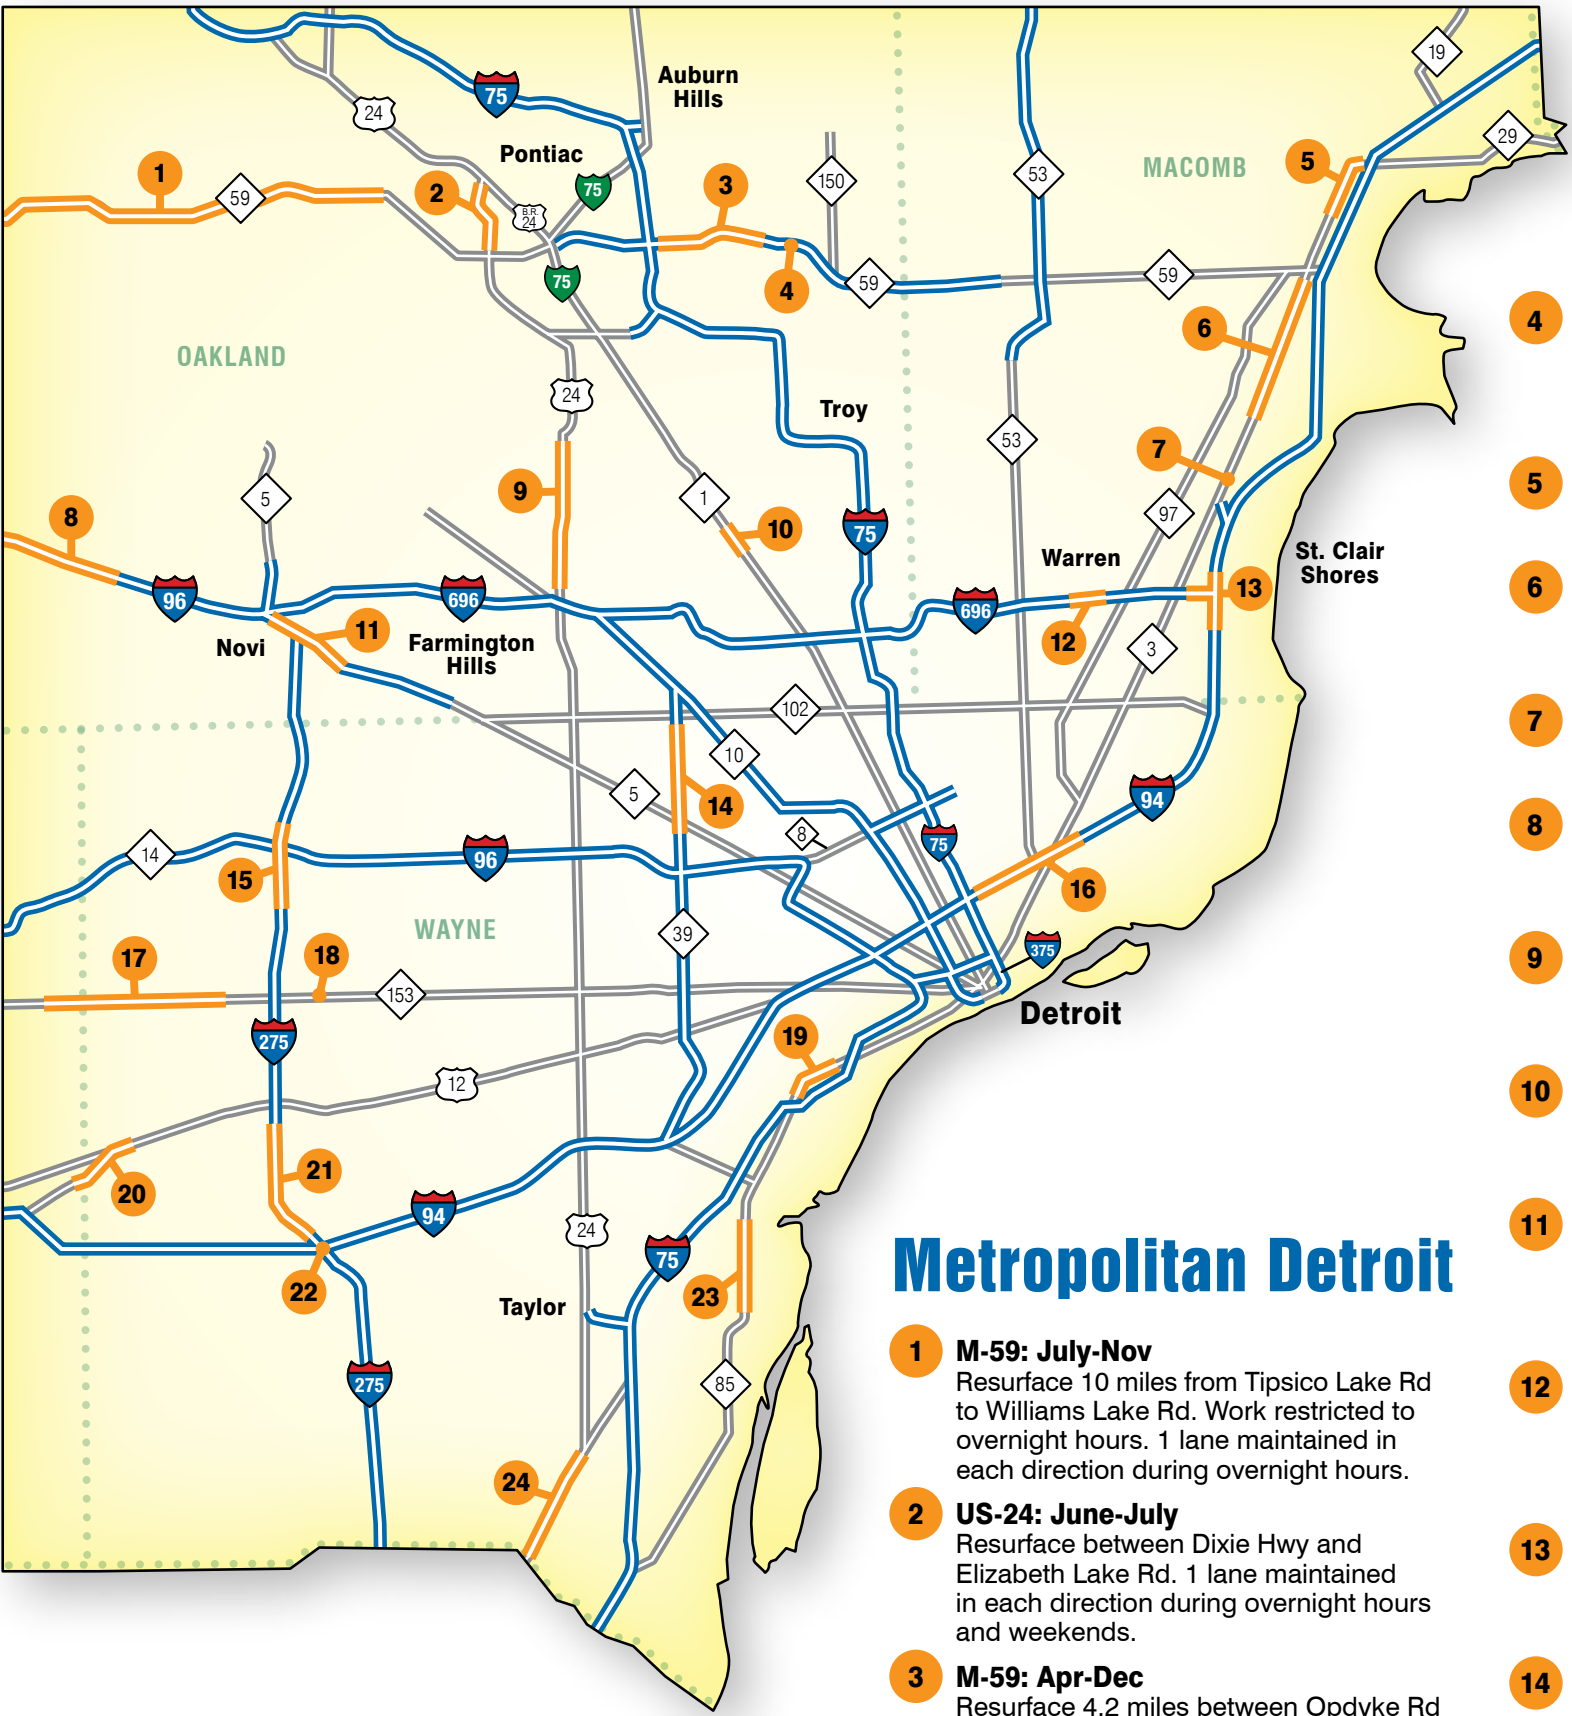

- Fines are doubled in work zones.
- The more you speed over the posted limit, the more points are added to your driving record. For example, 10 mph over the speed limit = three points.
- Six points will be added if you are convicted of killing or injuring anyone while driving in a work zone.
- You face up to one year in prison for injuring - and up to 15 years in prison for killing - anyone in a work zone. If convicted of drunken driving, reckless or careless driving, or speeding, you also face a maximum of \$7,500 in fines.
- "Click It or Ticket!" You can be fined \$65 for not wearing your seat belt. Worse than that, not being belted could result in serious injury or death.

Safety Tips To Live By

- Don't use your cell phone or change radio stations while driving.
- Pay attention to speed limits, barrels, cones, signs and flag control.
- Drive to the appropriate conditions.
- Don't tailgate.
- Merge early, don't wait until the last second.
- Pay close attention after dark.
